

User guide of Southeast University's index search and citation search platform —international student Edition

Southeast University Library
2021.03

Directions

1. This service is only available for **doctoral thesis defences and degree applications.**
2. If there are several papers needed to be verified, **all the papers need to be submitted in one application.** Please don't submit those papers separately in different applications.
3. If any paper has not been indexed in SCIE or SSCI or A&HCI at the time of the application for a doctoral thesis defence, but the journal of the paper is indexed in SCIE or SSCI or A&HCI of the year, **a certificate about the journal can be offered.**

4. The certificate about the journal **can't** be submitted separately on the platform and can be processed on-site in the library.

Location: Room 102 of the Sipailou Library

Room 201 of the Dingjiaqiao Library

Room B401 of the Li Wenzheng Library (Jiulonghu Campus).

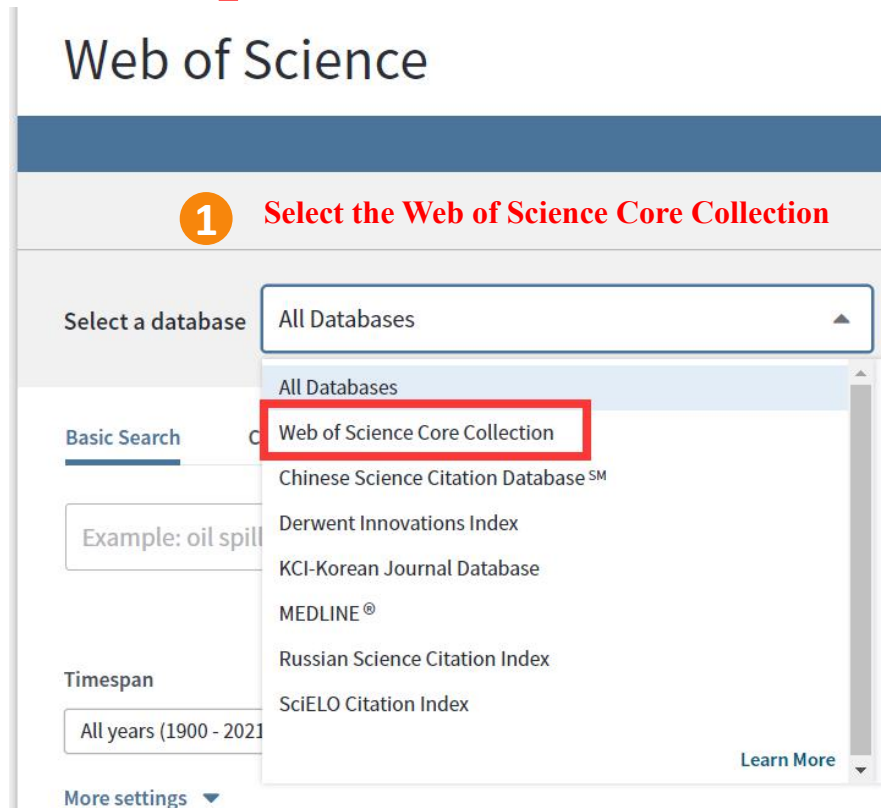

5. Papers must be **indexed in SCIE/SSCI/A&HCI/ CPCI-S/CPCI-SSH/EI** when applying for the doctoral degree.

Step1: Retrieve and download the paper.

1. Distinguish which index database each paper is indexed in. These databases only include SCIE, SSCI, A&HCI, CPCI-S, CPCI-SSH and EI.
2. The five databases ---SCIE, SSCI, A&HCI, CPCI-S and CPCI-SSH are in Web of Science Core Collection.
3. Each time select one database, retrieve all the required papers and download in accordance with the prescribed format. SCIE, SSCI, A&HCI, CPCI-S, CPCI-SSH download format is HTML, EI download format is TXT.

Example 1: Retrieve and download the paper from SCIE

Log web of science website “<https://webofknowledge.com/>” within the scope of school IP

2 Only this database is retained, and all other databases are ticked off

More settings

Web of Science Core Collection: Citation Indexes

- Science Citation Index Expanded (SCI-EXPANDED) --1900-present
- Social Sciences Citation Index (SSCI) --1900-present
- Arts & Humanities Citation Index (A&HCI) --1975-present
- Conference Proceedings Citation Index- Science (CPCI-S) --1990-present
- Conference Proceedings Citation Index- Social Science & Humanities (CPCI-SSH) --1990-present
- Emerging Sources Citation Index (ESCI) --2015-present

Web of Science Core Collection: Chemical Indexes

- Current Chemical Reactions (CCR-EXPANDED) --1985-present
(Includes Institut National de la Propriete Industrielle structure data back to 1840)
- Index Chemicus (IC) --1993-present

Tips: Please strictly follow steps 1, 2 to set up and then search!

Example1: Retrieve and download the paper from SCIE

The screenshot shows the SCIE search interface. At the top, there are navigation tabs: Basic Search, Author Search^{BETA}, Cited Reference Search, Advanced Search, and Structure Search. A search bar contains the text "Example: oil spill* mediterranean". Below the search bar, there are filters for Timespan (set to "All years (1900 - 2021)") and Web of Science Core Collection options. A dropdown menu is open for the "Topic" field, with "Title" and "Author" highlighted. A red circle with the number "3" and the text "Enter the search term and retrieve" is overlaid on the search bar area.

The screenshot shows the SCIE search results page. At the top, there are navigation tabs: Tools, Searches and alerts, Search History, and Marked List (with a red circle and the number "3" next to it). A red circle with the number "5" and the text "Click 'Add to Marked List'" is overlaid on the "Add to Marked List" button. The results list contains three entries, each with a checkbox, title, authors, journal information, and a "Full Text from Publisher" button. A red circle with the number "4" and the text "Check the required paper" is overlaid on the first entry.

Tips: If you search for multiple papers with the title of the paper, retrieve one paper and add it to the list of markup results, then click "Retrieve" in the upper left corner of the page to return to the basic search page to continue the search for the next paper. Once all the papers have been retrieved, proceed to step 6 on the next page.

Example1: Retrieve and download the paper from SCIE

*Selecting these items will increase the processing time.
†Cited References are not included in Export to Excel.

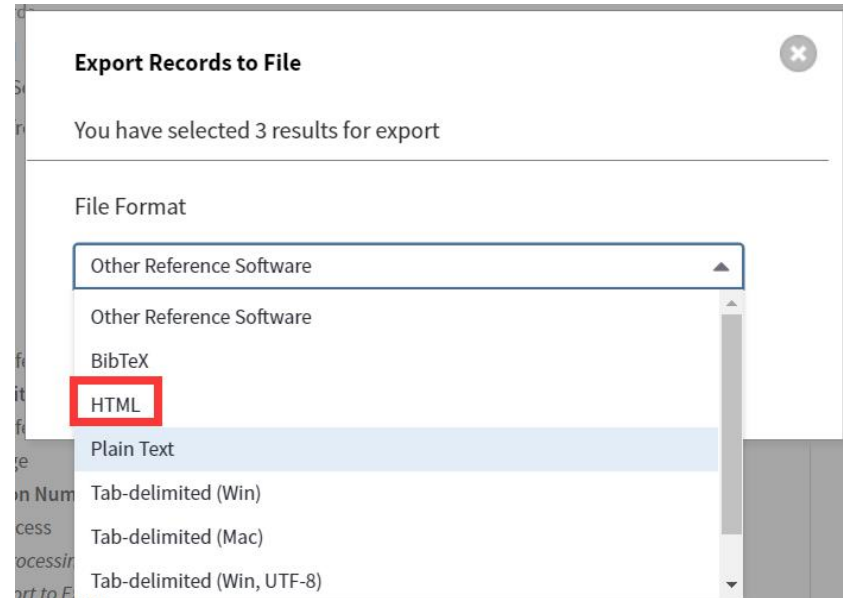

7 Click "Select All"

Example1: Retrieve and download the paper from SCIE

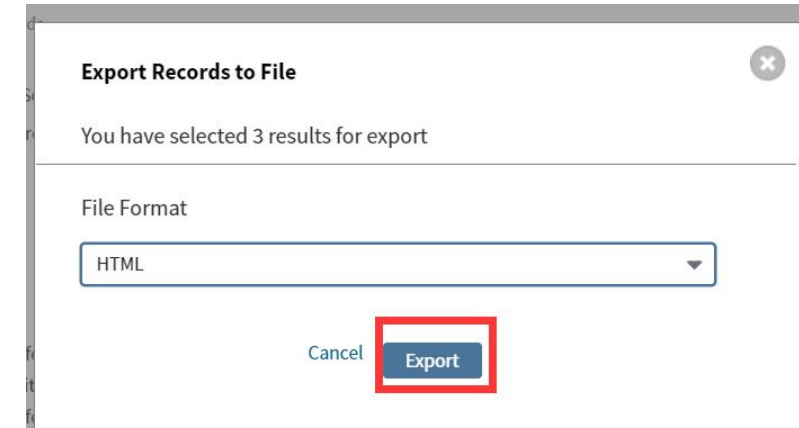

9 Click “Other File Formats”

10 Click “HTML”

11 Click “Export”

The operation of the paper indexed in SSCI or A&HCI or CPCI-S or CPCI-SSH is similar to SCIE, just select the appropriate database in step 2 and the other steps are the same.

Example2: Retrieve and download the paper from EI

Log in to the website “<https://www.engineeringvillage.com/>” within the scope of school IP

The screenshot shows the Engineering Village search interface. At the top left is the Engineering Village logo with the Elsevier emblem. The search bar contains the query: `e.g. (artificial intelligence OR intelligent computing) AND {social media}`. A red box highlights the search bar, and a callout bubble with a red '2' says "Enter you artical title, then search". Below the search bar, a dropdown menu is open, showing search scope options: "All fields", "Subject/Title/Abstract", "Abstract", "Title", and "Country of origin". A red box highlights "Subject/Title/Abstract", and a callout bubble with a red '1' says "select this one". The page also features navigation links for "Search", "Search History", "Alerts", "Selected records", and "More". Below the search bar, there are filters for "Databases", "Sort by", "Browse indexes", "Autostemming", "Discipline", and "Treatment".

Standards and COVID-19

Standards development organizations are responding to the COVID-19 pandemic by providing free access to relevant standards, used by engineers, researchers, and manufacturers, such as those for PPE, respirators, medical devices, emergency management, and so forth.

- ASTM standards: <https://www.astm.org/COVID-19/>
- IEEE standards: https://innovate.ieee.org/covid-19_related_research/

Engineering Research Profile NEW FEATURE

Summary of engineering research output for schools and research institutions.

Analysis includes:

- Top authors
- Funding sponsorship
- Research focus
- Publishing trend
- Subject area
- Source titles

3. Check the required paper on the search results page (search process omitted).
4. Click the download symbol (down arrow) to the right of the printer icon above the literature list.
5. Select Text and Detailed Record when downloading files.

Step 2: Submit the application to the index search and citation search platform

1. Log in the index search and citation search platform.
2. Upload the downloaded papers in the form of supplementary literature.
3. Set the search requirements.
4. Fill in the contact information.
